

DURAFIL® ES² (ENERGY SAVER) PRODUCT PERFORMANCE GUARANTEE

The Camfil Durafil ES² (Energy Saver) comes fully guaranteed to outperform all competitive products of its kind and to deliver the highest energy savings possible in the industry while maintaining rated efficiency. This guarantee eliminates associated risks with choosing or converting to the Durafil ES² and serves as proof that Camfil stands behind the product's design features and performance capabilities. The Durafil ES² is guaranteed to provide the following:

HIGHEST ENERGY SAVINGS: Due to the unique patent-pending design of this product, it operates at a much lower pressure drop in an air handling system than any competitor's like product, resulting in energy savings that cannot be delivered by anyone else. Compared to other final filter configurations, the energy savings are even greater. Our Life Cycle Costing (LCC) modeling software can be used in addition to help optimize your energy reduction and filter life. This product is a 5-Star rated energy cost index filter.

LIFETIME EFFICIENCY: The Durafil ES² uses a special fine fiber media that guarantees the MERV rating will be maintained the entire time it is in a system, allowing consistent and sustainable clean, high quality indoor air. Products made of highly-charged coarse fiber media have been proven to have a rapid reduction in MERV rating once installed in an air handler.

FILTER LIFE: Based upon energy savings and filter dirt loading characteristics, for the purpose of this document, the maximum life of the Durafil ES² shall be defined as two and a half times its initial resistance to airflow or three years — whichever comes first.

**If the Durafil ES² does not perform to the above standards,
Camfil promises to provide you one free set of replacement filters.**
